UPDATE - B-BBEE VERIFICATION CERTIFICATE

B1SA has been appointed by ArcelorMittal to manage the B-BBEE compliance status of all suppliers.

ArcelorMittal is committed to the policy of Broad-Based Black Economic Empowerment (B-BBEE) and believes that this initiative will contribute significantly to the promotion of short, medium and long term socio-economic stability in our country.

We thank you for committing to our transformation effort by previously providing B1SA with your B-BBEE certificate. According to our latest available information, your certificate **expired**.

We trust that you are in the process of renewing your credentials. We offer this e-mail as a reminder in this regard and request that you provide us with your new certificate as it becomes available. If it is still pending and you are aware of when it will become available, please update us accordingly by replying to this email accompanied by a letter from your verification agency confirming your engagement with them and the expected date of certification. If you are already in possession of an updated certificate, upload it to the hyperlink or browser link B1SA already forwarded to you. Should the links not work, please send the Verification Certificate direct via email to: tebogo@B1SA.co.za or bbbbee.sa@arcelormittal.com

Failure to comply with this request could adversely affect ArcelorMittal's B-BBEE results and may also potentially impact supply decisions made in ensuring the continued achievement of required targets. Your cooperation in this regard will be of great value to ArcelorMittal.

If you have any specific enquiries relating to this process, please contact B1SA on the number provided.

Mr F Swart
Manager: Strategy, Governance, Compliance & B-BBEE

B-BBEE Service Provider: B1SA Pty Ltd
