APPLICABLE SCORECARD	EXEMPT MICRO ENTERPRISE (EME)

Based on certain procedures performed and information provided by the management and/or directors of the measured entity, we have determined that the total annual revenue of the measured entity is less than or equal to R10 000 000.00 (ten million rand). We have also determined that the level of black / black woman ownership is set as per this certificate. Our conclusion is subject to an inherent limitation in that our procedures performed were based on historical information that has not been subject to an audit nor review. This certificate does not serve as a guarantee that the revenue or EME status as reflected in this certificate will continue at the same levels. Where the company is a start-up enterprise, this certificate is only valid for contracts with a single value of less than or equal to R10 000 000.00 (ten million rand). Should the contract value be more than R10 000 000.00 (ten million) but less or equal than R50 000 000.00 (fifty million rand), the EME will be subject to a QSE verification and required to produce a QSE verification certificate with any tender. For tender contracts over R50 000 000.00 (fifty million rand), the EME will be subject to a Generic B-BBEE verification and is required to produce a Generic B-BBEE verification certificate or scorecard with any tender.
