Dear **VOITH TURBO PTY LTD**

RE: DYNAMIC BALANCING (PTY) LTD/BROAD-BASED BLACK ECONOMIC EMPOWERMENT

The above matter refers.

Following our 2024-2025 Financial Year End Audit, Dynamic Balancing (PTY) LTD failed to qualify as an Exempt Micro Enterprise (EME) under the Amended B-BBEE Codes of Good Practice.

We are considered to be a Qualifying Small Enterprise (QSE).

Since 2022 we have not qualified for our Level 4 B-BBEE status and after conducting an internal B-BBEE Audit, we concluded that we are currently a non-compliant contributor.

Further analyses were done where it was found that, despite numerous efforts and substantial B-BBEE related costs, Dynamic Balancing will, at most, only qualify as a level 8 contributor which allows our customers to claim a mere 10% of their procurement spent with us.

Due to the above-mentioned findings and after careful consideration, Dynamic Balancing has decided not to embark on further B-BBEE ventures at this time but will instead focus our efforts and resources on delivering high quality services to our customers.

Whilst we understand that this could have a potential negative impact on customers' procurement spend, we trust that you appreciate our position regarding this matter and look forward to your continued support.

Kind Regards
DYNAMIC BALANCING (PTY) LTD
